DIGITAL SKILLS

React / Node.js / Javascript / PHP / SQL / Firebase / Workbench / WAMPserver / MySQL / Github

WORK EXPERIENCE

Self-Employment/Projects
Self-Employment [2022 – Current]

Country: Bosnia and Herzegovina

1. Restaurant Management System
Created a comprehensive system using PHP and SQL for restaurant management. Enabled customers to make reservations, select meals from a menu, and submit inquiries through a contact form. Highlighted skills in creating efficient and intuitive web-based solutions for real-world scenarios.

Content Creator
Gaming Portal [2022 – Current]

Country: Bosnia and Herzegovina
Website: https://www.youtube.com/channel/UC3XPcepY2FDgRbOSDjrv6aA
Business or sector: Information and communication

1. Content Strategy Refinement: Played a pivotal role in refining the content strategy for the YouTube channel.
2. Innovative Feature Suggestions: Made valuable insights and innovative suggestions for new features.
3. Engaging and Informative Video Game Reviews.
4. Proactive Approach: Kept the YouTube channel up-to-date with the latest releases in the gaming industry.
5. Data-driven Analysis: Actively monitored and tracked the growth of the channel.
6. Communication and Collaboration: Demonstrated strong communication skills, fostering effective collaboration within the team, and maintaining a positive attitude.

IT Tehnician
MecoLada [2022 – Current]

Country: Bosnia and Herzegovina

As an IT Technician at MecoLada I was responsible for connecting computers to the network, ensuring seamless communication across systems. Additionally, I handled system integration, ensuring compatibility and smooth functioning. Regular maintenance and upgrades were part of my responsibilities to optimize systems performance. Moreover, I provided valuable technical and software support, troubleshooting issues and assisting employees to ensure uninterrupted workflow.

Junior Software Developer
Teneo d.o.o [05/2018 – 08/2018]

As a Junior Software Developer, I created PHP-based software solutions for a bank's employee management system. My focus was on developing features for requesting leaves, holidays, and managing profile information. Utilizing MySQL, I ensured seamless data storage and retrieval. My contributions streamlined processes, improved productivity, and enhanced workforce management.

EDUCATION AND TRAINING

Bachelor of Science in Computer Engineering
University PIM [2018 – 2022]

City: Banja Luka
Country: Bosnia and Herzegovina
Website: http://univerzitetpim.com/
Type of credits: ECTS – **Number of credits:** 240

Transferred to University PIM from Visoka škola ITEP after completing 180 ECTS. Successfully completed the remaining coursework at University PIM to graduate with a Bachelor's degree in Computer Engineering. Developed a strong foundation in computer engineering principles, with a focus on web development and programming languages such as PHP, SQL, and JavaScript. Acquired practical experience in designing and implementing web applications using the aforementioned technologies. Proficient in database management and query optimization using SQL.

Graphic technician of multimedia technologies
Srednja tehnička škola grafičkih tehnologija dizajna i multimedije [2014 – 2018]

City: Sarajevo
Country: Bosnia and Herzegovina
